List of Toxic Substances created at the facility:

Styrene

Facility's approach to toxic substance accounting:

Mass balance for 'contained in product' based on incoming inventory records (materials entering facility), formula composition for waste characterization data and waste manifests for off-site disposal.

No inventory due to order on demand system.

Facility's Objectives and Targets:

The facility's goal is to reduce the use of styrene by 100% in the next one to two years. They have implemented an option to reduce. This option is the elimination of the raw material that contains styrene monomer used in their process.

The name of the substance and the Chemical Abstracts Service (CAS) Registry number for the facility:

Name: Styrene

CAS Number: 100-42-5

TRA and NPRI quantifications for comparison of 2011 to 2012 for Styrene:
